Jpersonalize for Joomla 1.5 and or Juser

€7.50 (incl. 19 % btw)

Insert the current user's name in content items was earlier developpt by Mjaztools. We took it to the next fase, it communicates with JUSER from [joomlaequipment](#) . **For Joomla 1.5.x**

Usage:

- This Mambot is based on Mjaztools Personalize, en build further to use with Juser.
- {username} will be replaced by the username.
- {name} will be replaced by the user's full name.
- {email} will be replaced by the user's e-mail address.
- {usertype} will be replaced by the user's usertype (Registered, Editor, etc...)
- {registerdate} will be replaced by the user's date of registration.
- {id} will be replaced by the user's id
- {lastvisitdate} will be replaced by todays date
- {user title field with everything in it incl. space eq "Age: "} will be replaced by the user's "Age: " - value

If the mambot is unpublished, or the user is not logged in, the tags will simply be removed.
